1. About holding exhibition

The International Conference of DC Microgrids (ICDCM) aims to bring together professionals from industry and researchers in the field of DC microgrids and related technologies to advance understanding and capability for endpoint use of DC systems and technologies.

The 3rd ICDCM will take place in a historical and beautiful city, Matsue, Japan, May 20-23, 2019.

In ICDCM 2019, we ask companies to participate in the conference, research institutions, etc. to exhibit in order to provide useful and up-to-date information to participants. Please understand the purpose of this conference and ask for your cooperation.
